

Hazardous waste Removal

Decommissioning and R22 Phase Out

What are you doing about your R22?

As well as use in many air conditioning systems, R22 refrigerant is commonly used in the UK food, drink & catering industries but also in many other businesses.

The revised EC Ozone Regulation requires the complete ban of virgin HCFC refrigerants including R22 and R408A gases by the end of 2014. **It will be illegal to use HCFC gases like R22 from 1st January 2015.**

- Help with HCFC Phase out
- R22 Waste Gas Removal
- Obsolete System Removal
- VRVs Disposal
- Cold rooms Disposal
- Fridge/Freezer Disposal

Time of Sale: 2016
